3RD NATIONAL PEDIATRIC ONCOLOGY NURSING CONFERENCE 2024

Dear Friends,

On behalf of the organizing committee of Pediatric Oncology Nursing Conference 2024, We are pleased to formally invite you to participate in the 3rd National Pediatric Oncology Nursing Conference, scheduled to take place at Tata Memorial Hospital in Mumbai on 23rd and 24th of September to celebrate **World Childhood Awareness month and International Pediatric Hematology Oncology Nurses Day on 8th September.**

The Childhood Cancer Awareness Month was to raise awareness about childhood cancer, which remains the leading cause of death by disease for children under the age of 14.

The impact of childhood cancer translates into years of life lost, more significant inequalities, and economic difficulties. This situation can and should change.

The most common types of cancers in children are ALL, Brain and other CNS tumours, lymphoma and Neuroblastoma.

This conference is organized to enhance the knowledge of nurses regarding Neuroblastoma and the recent advances in its treatment.

The objective is to enhance knowledge about pediatric oncology among nurses, and to create an opportunity for networking which will help in widening their horizons.

We invite you to join with us and collectively achieve the goal set by WHO to achieve at least 60% survival for all children with cancer by 2030.

Organizing Team
